TWIN CHAMBER

The Crewsaver industrial and commercial range has been developed over many years using only the most advanced fabrics and manufacturing processes. Continuous stringent research and development within the industry has seen Crewsaver products in use worldwide in a diverse range of commercial sectors and institutions. Designed to perform in the most arduous environments, Crewsaver has developed a range that suits all your safety needs.

Crewfit Twin 2010

The Crewfit Twin 2010 is designed to meet the new SOLAS 2010 regulations according to MSC 81(70) as amended by MSC 200(80) and MSC 207(81). The Crewfit Twin 2010 outperforms the new requirements, providing increased performance in the most demanding environments. Improved body angle, mouth freeboard and face plane angles make the Crewfit Twin 2010 even safer at sea. Together with the improved rotating times, the new unique inflation chamber (patent pending) is fitted with twin Auto Hammur mechanisms, providing unrivalled comfort as well as support.

The Crewfit Twin 2010 is both easy to don and comfortable. With a new more compact cover, this universal adult size lifejacket is suitable for persons from a minimum weight of 43kg and will fit a chest size of up to 1750mm. The Crewfit Twin 2010 is designed for extreme working environments and is also suitable for abandonment purposes. The high buoyancy level provides added protection when heavy work gear and clothing is worn. Each chamber is fitted with a 60g CO₂ cylinder and 2.5 psi relief valve ensuring full buoyancy is achieved during single or double chamber inflation.

The cover is available as standard in durable PU coated polyester, it is also available with a heavy duty coated PVC or fire resistant cover. The Crewfit Twin 2010 is fitted with crutch strap as standard.

Crewfit Twin 2010 PLUS (SOLAS)

The same specification as the Crewfit Twin Lifejacket with the addition of a full CE approved Fall Arrest (FA) body harness for safe working at height.
